

## Working With Words Phonics Lessons

Lesson # 42 Date: \_\_\_\_\_

Introduce: Qu /kw/

Key word: Queen

Before beginning lesson, **review the following concepts:**

- Alphabet is a code that lets us write our thoughts or words we speak so someone else can read them
- Two ways to write each letter—capital and lower case
- 26 letters in the alphabet
- Two kinds of letters – consonants and vowels
- Letters make words
- Words make sentences
- Sentences go together to make stories, letters, etc.

Using the Key Word card **introduce the letter and model the sound** it makes. Have each student repeat the sound correctly. Be sure to tell the children that the letter “q” is always followed by the letter “u” in the English language. Some teachers introduce them as a “married couple.”

Have students **generate a list of words** that begin with the first sound in the key word. Choose one word to use in a sentence. Write the sentence on the board.

Using a variety of picture cards have the students **distinguish the pictures that begin with the sound: Qu /kw/**

Activity: \_\_\_\_\_

**Dictate words** and have students write and mark the words.

quick, quack, queen, quilt, quit, quiz

Ideas: Tongue Twister: The quiet queen quilted quickly.
